PROFESSIONAL EXPERIENCE

SSR FULL STACK DEVELOPER | Bsmart (*September 2024 – Present*)

- Led a cross-functional development team to deliver 5+ projects for diverse government clients, meeting all deadlines and quality standards.
- Reduced average request latency by refactoring monolithic service into concurrent workers, handling ~10K daily transactions.
- Integrated third-party CRM APIs into client systems to enable seamless data synchronization and enhance data-driven workflows.

Node | PostgreSQL | React | Typescript | Git | GitHub

WEB DEVELOPER | National University of Luján (*April 2022 - September 2024*)

- Collaborated in the development of 2 educational applications that enhanced teaching effectiveness and student engagement at the university.

Typescript | CSS | Git | GitHub

EDUCATION

PROGRAMMER ANALYST | Bachelor's Degree in Information Systems at National University of Luján (*2019 – 2024)*

PERSONAL PROJECTS

E-COMMERCE | CrystalGym
- Developed a full-stack e-commerce platform for urban and gym clothing, featuring an **admin dashboard** to **create, edit, and manage products.**.

ML SALES DASHBOARD | InventoMate
- Designed a **sales prediction and analytics system** integrating **microservices**, **RESTful APIs**, and **third-party APIs** (Mercado Libre API). Focused on **data visualization**, **predictive modeling**, and **scalable backend architecture**.

SOCIAL MEDIA | SongHub

- Built a **social media platform** for users to share opinions, reactions, and song/album ratings. Integrated **Spotify API** to retrieve real-time music, album, and artist data. Implemented **user authentication**, **dynamic content feeds**, and **interactive UI components.**
